

Energy Storage Services

Pearce Renewables operates and maintains our nation's mission-critical renewable energy infrastructure

PEARCE[™]
—  RENEWABLES

OUR NATION'S #1 OPERATIONS & MAINTENANCE INDEPENDENT SOLUTIONS PROVIDER For Mission-Critical Renewable Energy Infrastructure

Pearce Renewables is the largest Independent Solutions Provider (ISP) for mission-critical renewable energy infrastructure in the nation.

Solely working for you with no conflicts of interest, we are a dedicated and transparent extension of your team.

We are your renewable energy partner for Wind, Solar, Electric Vehicle (EV) Charging, and Energy Storage, offering affordable, efficient, and customized solutions.

WIND • SOLAR • EV CHARGING • ENERGY STORAGE

IT'S WHAT WE DO AS A TEAM THAT SETS US APART AS A COMPANY

Our team is comprised of passionate technicians who demonstrate, day in and day out, the true value of teamwork. Our highly-trained Field Service Technicians and Engineers provide a variety of specialized solutions to a diversified client portfolio, including some of the largest renewable energy projects.

Maintaining versatile teams that deliver high quality results starts with recruiting the best and the brightest from leadership to field services. Cultivating excellence requires ongoing staff development, education, and hands-on training to consistently meet the demands of a rapidly evolving industry.

NATIONWIDE SERVICE LEADER

We are a leader in commercial and utility-scale energy storage system services. We provide maintenance to a diversified client portfolio of companies comprised of the largest energy storage manufacturers, operators and system integrators in the nation.

The Pearce team maintains the largest team of thermal management technicians in North America, servicing over 1GW of storage infrastructure.

Customized, Cost-Effective, and Seamless

We offer cost-effective service solutions and team configurations customized to meet the demands of each client and project. Whether you need a project team or on-demand crews for scheduled or unscheduled maintenance and repair activities, our highly trained teams are ready to deliver service solutions that seamlessly integrate into your organization.

CONSTRUCTION & COMMISSIONING

CONSTRUCTION SUPPORT

- Turn-Key ESS Maintenance & Servicing
- HVAC System Review & Consulting
- QA/QC: Electrical, Mechanical, & HVAC
- Installation Services: Inverter, Batteries, HVAC & Containers

COMMISSIONING

- Independent Third Party Commissioning
- Nationwide Crews
- Installation Quality Reporting & Scorecard
- General Labor to Skilled Technicians

PROJECT MANAGEMENT

- Contractor Selection/Liaison
- Safety Oversight
- Electrical/Mechanical
- Material Receiving/Logistics
- Reporting

OPERATIONS & MAINTENANCE

PREVENTATIVE MAINTENANCE

- Annual PM Programs
- Site Inspections
- OEM Prescribed Services & Campaigns
- Electrical Distribution (ED) Service & Maintenance
- HVAC
- Fire Suppression

HARDWARE RETROFITS

- OEM Field Services
- New Technology Installation
- Firmware/Hardware Updates
- White Label Services
- Plant of Return Operations
- Repowering
- Decommissioning

CORRECTIVE MAINTENANCE

- Nationwide Emergency & Critical Response
- Site Security & Lighting
- Troubleshooting & Corrective Repairs
- Inverter, Batteries, HVAC & Container Repair
- Parts & Logistics
- Emergency Event Battery Clean-Up & Repair

We offer cost-effective services, customized to meet the demands of each client and project. As your dedicated partner, our highly trained Field Service teams are ready to deliver solutions that seamlessly integrate into your organization.

ENGINEERED SOLUTIONS & SPARE PARTS SUPPLY CHAIN

ENGINEERED SOLUTIONS

- Field Troubleshooting & Repairs
- Remote Troubleshooting Support
- Methods & Process Development
- Specialized Tooling Design & Procurement
- Up Tower Component Repairs & Upgrades
- Parts Re-Design & Retrofit Solutions

SPARE PARTS SUPPLY CHAIN

- Spare Parts Procurement
- Inventory Management
- Logistics
- National Warehouse & Distribution Center (32,000 sq. ft.)
- Prepackaged Scheduled Maintenance Kits

OPERATING AROUND THE CLOCK

Our professionally trained nationwide service teams provide solutions through every interaction. We work safely and diligently to keep your sites performing optimally.

We are here for you anytime, anywhere. Our operations team provides nationwide coverage to ensure you are fully covered around the clock.

WORLD-CLASS SAFETY & TRAINING CULTURE

Pearce Renewables developed, and vigorously enforces, comprehensive workplace safety practices that ensure a safe work environment for all. Our team members are our most valuable asset and we are committed to sustaining a world-class safety culture, one that always places the highest priority on the safety of our people, our customers, the public, and the environment.

Our state-of-the-art training program, available at our Technical Training Center and on our Mobile University, was developed to ensure we can meet the growing needs of the renewable energy industry, keeping all crew members up to speed on the latest innovations. Technicians are also recognized and incentivized for professional growth and responsibility. The result is a team that takes great pride in the work they do.

ADDITIONAL RENEWABLE ENERGY SOLUTIONS

Pearce Renewables can also provide a full range of solutions to other renewable energy industries, including utility-scale wind, commercial and utility solar, and EV charging.

Utility-Scale Wind

- QA/QC
- Project Management
- Scheduled Maintenance
- Corrective Solutions
- BOP (Balance of Plant)
- Retrofit/Repowering
- End of Warranty Inspections

Commercial & Utility Solar

- Land Management
- Construction
- Field Maintenance
- Inverter Maintenance
- Panel & Mirror Washing
- Retrofit/Repowering
- Emergency Response
- Panel Recycling Support

EV Charging

- Preventative Maintenance
- Corrective Maintenance
- Nationwide Emergency & Critical Response
- Repowering
- Parts & Logistics Management
- 24 x 7 Coverage
